

D.F.O. : Dental - Facial - Orthopedics

Ortho becomes easy with D.F.O. !

Analysis in no time

Just enter D.F.O., set all the points needed to complete your analysis and your analysis will be automatically calculated and drawn on screen. No need to spend a large amount of time on drawing and calculating. With D.F.O. it is easy to perform all kind of analysis.

Create your own Analysis

With our optional Analysis Editor, you can build your own analysis from scratch or from any existing analysis. With our scripting technology, you can even display text, drawings on the analysis for better viewing. Combining measurements from different analysis is done in a couple of clicks. You can export your analysis to every D.F.O. user to let them use your analysis.
